

Yash Kemkar

📍 Melbourne, Australia ✉ yashkemkar@gmail.com in <https://www.linkedin.com/in/yash-kemkar/>

I am a versatile professional with a background in engineering, commerce, and project management. Currently transitioning into the tech industry, I am passionate about leveraging my analytical skills and project management experience to excel in software engineering. My diverse experience in managing complex projects, combined with my ongoing learning in programming languages and frameworks, positions me well for a successful career in software development.

Professional Experience

Kemkar Construction / Kemkar Capital

Jun 2020 - Present

Project/Development Manager

Auckland, New Zealand

- Managed construction projects and raised capital for development initiatives.
- Communicated with and organized contractors efficiently.
- Planned projects, evaluated risks, and solved problems to minimize delays and costs.
- Established legal frameworks and ensured compliance with FMA regulations.
- Prepared quarterly reports and communicated with investors.
- Gained experience in legal language, financial statements, cashflow projections, sales, marketing, and project management.

Organics Out West
